Energy Security

The Future of Fuel

In **response to the national fuel crisis** MRDC was called to assist. Our **unique structure** and investing guidelines along with our very very **strong relationship with EXXONMOBIL** makes it possible to be one of the organisation that can provide a **solution to the nations JET A1** requirements at the same time as providing returns to our shareholder.

We are signing the documents for Technical Assistance during construction with ExxonMobil after this session..

At MRDC we are ready for the boom! We are just getting started as we continue to be.....
