STEEL MANUFACTURING SITES

Manufacturing

Australia

Sun Engineering has a large modern fabrication facility strategically located at Carole Park Industrial Park in Queensland. This facility is located with direct access to major highways going north to the QLD coal fields, south to NSW and the Hunter Valley coal region along with direct freeway access to the Port of Brisbane to support our export activities. This facility has over 9000m² of covered fabrication space and over 15,000 m² of storage and modularisation area. The Carole Park industrial area also houses the states largest Industrial galvanising facility, large steel suppliers, Industrial panting facilities as well as a number of large machining workshops.

Manufacturing

Papua New Guinea

For the past 17 years Sun Engineering has been successfully delivering projects in Papua New Guinea. Sun Engineering's new facility conveniently located in Port Moresby will continue to support our clients deliver projects safely, on time and within budget. We are dedicated to the people and development in PNG and this is evident with our community support through charity and sports sponsorship. With our fleet of cranes and highly skilled labor force we are PNG's industrial SMPE&I Specialist.

Manufacturing

China

The NSS facility has a fully enclosed workspace area of 33,000 m², with a dedicated work area of over 2,000 m² for paint coating works. The facilities is equipped with advanced Flux Core and Sub-merged Arc welding equipment along with steel fabrication machinery capable of fabricating both domestic materials or international shape profiles, and grades specifications. Our Quality Assurance program complies with international standards to insure that we can meet our customers location specifications for anywhere in the world.

Diversity at Sun Engineering

Sun Engineering strives to be the leader of an inclusive culture where diversity of thought and background is valued. This provides better outcomes for our people, customers and the International community.

Diversity means difference. Some of the characteristics it encompasses are gender, ethnicity, religion, age, ability or disability, sexual orientation, language, skills, experience, education, industry sector, and approaches to thinking.

We believe diversity of thought and background, together with an inclusive workplace environment, is critical. This supports our employees and team to excel and enables innovation to continuously improve our products and delivery of our services.

We value diversity in our organisation and the different viewpoints they bring to help us make more informed decisions.

Company Core Values

PLAY IT STRAIGHT

We are all responsible for creating an environment where open, honest and direct two-way communication occurs. We tell it like it is, give and receive honest feedback and listen carefully. All our interactions have an outcomes focus. We operate with the utmost integrity throughout all our operations.

RESPECT BUILDS SUCCESS

We respect the individual talents, differences and strengths of every employee. We engage and ask for support or action. We support and care for each other and deliver on the commitments we make. Everyone makes a significant contribution to the organisation.

IMPROVE AND INNOVATE

We anticipate change and are switched on to new ideas and possibilities. To grow with our employees and stakeholders we must constantly improve and innovate. We look for continuous improvement in our activities and for new opportunities everyday.

DELIVER TO WIN TOGETHER

Sun wins when our stakeholders win. We only deliver products and services that provide the best quality and value for our customers and stakeholders. The products and services we deliver to our customers and stakeholders equip them with solutions for business success. We partner together across the organisation to deliver outcomes and solutions. We work together to make things happen. We seek win/win outcomes.

EXPECT THE BEST

We expect the best results across all operations. We recruit and develop the best and strive to be the best in all of our markets. We set our standards high, set stretch goals, plan to achieve and exceed desired results. We work to the highest standard. We celebrate success and achievement and enjoy our work.'
